

FRANKLINE KIPNGENO KOBER

SOFTWARE ENGINEER

NAIROBI, KENYA

Phone: +254 794 603 876 | Email: franklinekober@gmail.com | [GitHub](#) | [LinkedIn](#)

About Me

I am an IT graduate and a software engineer specializing in developing user-centric and dependable web and mobile applications. I also do data entry and analysis. My expertise lies in writing clean code, designing seamless user interfaces, and implementing secure, scalable backend systems. I am also deeply interested in emerging technologies, particularly artificial intelligence, and how they can be applied to improve functionality, performance, and innovation across different domains. I am committed to continuous learning and professional growth, driven by a passion for delivering impactful, real-world solutions.

Skills

Frontend Development

- JavaScript, TypeScript
- React, React Native, Next.js
- HTML, CSS, Tailwind CSS
- AOS (for Animation)

Backend Development

- Node.js, Express.js, Prisma
- REST API Development
- PostgreSQL, MongoDB, MySQL

Authentication

- JWT, Next AUTH

Tools & Workflow

- VS Code, Git, GitHub, Postman, HTTP
- Agile Development Practices
- Team Collaboration and Problem-Solving

Soft Skills

- Team Collaboration and Peer Support
- Problem-Solving and Logical Thinking
- Time Management & Accountability

Experience

Attachment Student – Teach2Give

Murang'a | May 2025 – July 2025

- Participated in a learning-based attachment program focused on full-stack development
- Gained hands-on exposure to real-world software development environments
- Worked with a mentor and team members to understand software project structures
- Practiced writing clean, maintainable code and using collaboration tools

Graduated a software development course by Teach2give (now The Jitu) and got Certified.

Graduated a software development course offered by PLP and got certified.

Graduated Artificial Intelligence Part Time course by Moringa School and got certified.

Freelance Software Developer

Remote | 2024 – Present

- Built mobile and web applications using React and React Native
- Designed intuitive UI layouts and animations for smooth user experiences
- Implemented secure user authentication and handled form validations
- Integrated backends with Node.js, Express.js, and Prisma
- Deployed apps using Render, Vercel
- Used Git and GitHub for version control and project collaboration

Education

Bachelor of Science in Information Technology

Murang'a University of Technology

Aug 2022 – April 2026 awaiting graduation come August 2026

Relevant Coursework:

- Web & Mobile Development
- Data Structures and Algorithms
- Software Testing and Debugging
- Database Systems
- Artificial Intelligence

- Cybersecurity
- Computer Networking
- Research and innovation
